"I'm discovering a role that allows me to share my creative ideas while providing opportunities for continuous learning under experienced mentors, helping me advance in my career. My aim is to take on team responsibilities and refine my leadership abilities by tapping into the collective knowledge of my colleagues. By collaborating closely with diverse teams, I intend to enhance my communication skills and adaptability, absorbing valuable insights from both peers and senior professionals.

### Projects

#### Enhancing Women Safety Device

Led a cross-functional team in identifying and resolving critical safety issues for women. Strategically analyzed challenges, developed innovative solutions, and implemented measures to enhance women's safety through this device. Facilitated team cohesion through engaging activities, fostering a collaborative work environment, and improving communication. Achieved a stronger and more effective team dynamic, contributing to the successful enhancement of women's safety measures.

#### Static Web Page Of Online Food Delivery System

I'm an aspiring web developer with a passion for learning HTML and CSS. I've already customized a static web page for an online food website. I'm eager to continue expanding my skills, collaborating with others, and taking on new challenges in the dynamic field of web development.

#### TextCraft - React Text Manipulation Tool

Developed a dynamic text manipulation tool using React, named TextCraft. Empowered users to perform operations such as converting text to lowercase/uppercase, copying content, and removing spaces. Designed a responsive and intuitive user interface with real-time updates for efficient text editing.
